

Elroy Gene Christiansen
Senior Licensing Officer
Office of National Security & Technology Transfer Controls
Bureau of Industry and Security

Mr. Christiansen is the senior licensing officer in the Office of National Security and Technology Transfer Controls, Bureau of Industry and Security. In addition to processing licenses for aerospace and other items, he manages the commodity jurisdiction, commodity classification and licensing determinations for the Office. As a senior engineer, he is involved in many intra and inter agency working groups that are considering changes to export controls and practices. He is a frequent participant in the Department's Export Administration regulations training program and is the Bureau authority on aerospace and technology transfer issues. Mr. Christiansen joined the Department of Commerce in 1983 after serving 20 years in the Air force. He holds a B.S. degree in mechanical engineering from Brigham Young University and a Masters degree in mechanical engineering from the University of Missouri.
